THE DREADED APACHES.

FURTHER DETAILS OF THE FATAL INDIAN RAID AT HERMOSILLO.

THE CAUSE OF THE PRESENT OUTBREAK IN MEXICO.—THE ARIZONA RESERVATION BELIEVED TO BE SECURE FROM ATTACK.—THE MEXICAN TROOPS USELESS.

EL PASO, TEX., April 18.—The Indian outbreak of 1883 is likely to be more fatal to life, more disastrous to property and more memorable in Mexican history than any since the Apache raids of 1878. The sickening details of the savages' work at Palomos ranch have just been received. The number of whites killed at Hermosillo is seventy-eight, so far as known, but a larger number are believed to have been massacred. General Crook and the Mexican General, Teneres, have been in consultation for several days in the vicinity of Nogales, Mexico. The country is rugged, and the war-like Apaches are scattered over hundreds of miles of territory. Their number probably does not exceed 400 all told. No one knows their exact strength and the mountainous country is very bad to penetrate with troops. The attack on Hermosillo was made by a marauding band, which tortured and murdered men, subjecting their bodies to indescribable indignities. The women fared worse. John's renegades, General Crook tells me, are the most devilish to their captives. But the Mexicans have always been the worst sufferers. The Indians have rarely gone as far north as the Arizona border.

Hermosillo is an old, old city, left from the days of the Spaniards, three centuries ago. Among the mesas, or table lands, which at a distance seem to blend with the plains, though in reality rising far above them, flows a living stream, a rarity in the Southern country. Along its banks grow groups of palms and cactus, the guava and the India fig. In this little spot of vegetation was the Palomos ranch where the massacre began last Tuesday. No soldiers within hundreds of miles, and none women than men for victims. One or two who escaped and found General Crook at Chihuahua, say that all the rest were massacred. Men were suspended by the wrists over ground fire and women stripped of their clothing were tied to stakes and made witness to the tortures of husbands and fathers. The Apache Chief, July, did not take part in the barbarities. He seems to have witnessed the atrocities or at least permitted them to go on.

About a year ago some 200 renegade Apaches, with their families, escaped into the Sierra Madre in Northern Mexico. From this hiding place they have made frequent excursions into the surrounding country, murdering and pillaging. Some time since General Crook, of Chihuahua, moved on the region infested by these renegades with 2,000 Mexican soldiers. The Indians, under Juan and Leo, to divert attention, recently raided Arizona with twenty-eight leaves, striking the neighborhood of Tombstone, and then reappearing in several places, evidently for the purpose of drawing recruits from the San Carlos reservation, but without success. Judge McComas and others were slain in this movement, and the Indians then returned into the mountain fastness of Mexico, losing one killed and one captured. All the depredations came from these Indians, but the frontiersmen have made both of these cases an excuse for many meetings at which they have indulged in wholesale denunciations of what they call to as the Bourgeois Republican Government.

Miners and cowboys, stimulated by interested parties who want an Indian war to get possession of rich pasture and mining lands on the San Carlos reservation, threatened to attack it and kill the peaceable red men. General Crook has just telegraphed for the Indians on the reservation to protect themselves from such an attack, and he does not believe that there will be any uprising in Arizona of the Indians, even if they are attacked by frontiersmen. The only pending danger, he believes, is repeated raids by renegade Apaches in Mexico, against which Mexican troops are operating. As long as they are in a hostile attitude there will be danger, and investment and travel here is being seriously disturbed by the pending hostility. General Crook does not conceal that the situation is serious and that scattering prospectors and mining camps are in danger until the hostile Indians are subdued, but he denies that the friendly Indians are on the war-path or are likely to go.

CENTRAL AMERICAN EARTHQUAKES.

NEW YORK, April 18.—A Panama dispatch of April 6 says: On the 8th of March a sharp earthquake caused considerable damage at Cartagena. Another shock at Tulbo was felt with great violence. Seven houses were destroyed. A strong earthquake was felt at Africa on the 4th.

A FATAL KIND OF SALT.

ARKANSAS CITY, ARK., April 18.—Of six little negro children poisoned at Dermott Station, eighteen miles from here, last Friday, by using strichine instead of salt at a play dinner they had cooked, four are dead. The others are likely to recover.

ENGLISH VENGEANCE.

CURLERY CONVICTED AND SENTENCED TO HANG MAY 18.

A BARRACKS BLOWN UP.—LOUISE MICHEL COMMITTED FOR TRIAL.—TROUBLES ON THE CONGO.—EXPULSION FROM FRANCE.

BLOWING THINGS AROUND.

LONDON, April 18.—An explosion of supposed dynamite has just occurred in a cellar under the barracks at Dover. The shock shattered the windows and tumbled down chimneys in every direction.

LOUISE MICHEL COMMITTED FOR TRIAL.

PARIS, April 18.—Louise Michel has been committed for trial. She will defend herself.

ANOTHER SUSPECTED CONSPIRATOR.

LIVERPOOL, April 18.—A man named Eugene Kingston, said to be an Irvinbridge and connected with the Phoenix Park murders, has been arrested.

MORE EXPLOSIVES.

LONDON, April 18.—A box said to contain explosives was found alongside the Cathedral at Salisbury last night. The Cathedral is now garrisoned by police.

SHOOTING IN IRELAND.

DUBLIN, April 18.—The complaints of terrible suffering and starvation throughout many counties and especially in the West district continue to reach not only the Lord Lieutenant, but the Premier. The suffering is known, so the Government agent says, to be due solely to the lack of proper food, and in many cases it has resulted in almost absolute starvation. The food is as poor as it is scarce, and disease once started develops and spreads with great rapidity since the sufferers have nothing with which to build upon. To such an extent has the trouble grown in some districts, that the local bonos have passed resolution attracting the attention of the Lord Lieutenant to the distress and to the great increase in fever cases, and asking that relief measures be taken.

CURLERY SENTENCED TO HANG.

DUBLIN, April 18.—On the resumption of the trial of Daniel Curley this morning, Adams began his argument for the defense. He decided that the evidence given by Kavanaugh did not show that Curley was at Phoenix Park on May 6. His presence there, said Adams, was indicated by James Carey, who said Curley was in command, but Carey so swore to save his own neck. He was, doubtless, in command himself of the assassins.

Mr. Porter, Attorney General for Ireland, responded for the Crown. The Judge then charged the jury, and the latter retired. They soon returned and rendered a verdict of guilty of murder, and Curley was sentenced to be hanged.

DUBLIN, April 18.—The 18th of May is the date fixed for the execution of the condemned man.

M. CHASTOPENOFF EXPULSION FROM FRANCE.

PARIS, April 18.—The French Government has issued a peremptory order expelling M. Chastopenoff from the country, after having him quietly placed under arrest and detained for some days. His offense was not a crime and not punishable under the law, and the action was taken solely to relieve the Government of a Socialist agitator, whose presence in Paris was distasteful to it and annoying to Russia. The only charge proven against him was the possession of a package of money, on the wrapper of which was a print of a nihilistic seal. In expelling him the Government is carrying out the same policy which it did in the secret arrest of M. Wiether, who was in prison for five days before his friends knew of his confinement. He was then expelled from the country. M. Chastopenoff's expulsion is made under cover of the law of 1840. The Anarchists have made both of these cases an excuse for many meetings at which they have indulged in wholesale denunciations of what they call to as the Bourgeois Republican Government.

INCREASING TROUBLES ON THE CONGO.

LONDON, April 18.—The troubles on the Congo increase, and threaten to involve all the other races which have interest there as well as the French and natives. Portugal has taken alarm, and the Portuguese Governor, whose province lies south of the Congo, has been obliged to ask for assistance from the home Government to place him in a position which, at the best, can be only of armed neutrality. The Government has no inclination to interfere, but a large corvette has been sent down the coast, and will be followed by one of the new gunboats. This will make Portugal as strong in armament as any power on the west coast.

The French have not been idle, and have taken possession of Loango, to the north of the Congo, where there is an excellent port, and have possession of Portanegra.

There is a great deal of danger that a conflict will be brought on between the French and Stanley's parties, who are on the river and even an accidental meeting may at any time precipitate hostilities.

COWARDLY POLICEMEN.

OTTAWA, April 18.—Four shots were fired about midnight at a policeman on duty at Rideau Hall. A detachment of Toronto police are on duty there, and they dared not leave the building, as it was thought the shots were intended as a decoy. After firing the individual took to the bush, and has not yet been captured. An extra guard was on duty at the time, and it was subsequently strengthened.

ROBBED OF \$3,000.

ROCK ISLAND, ILL., April 18.—A German and his wife were held up by two robbers, last night, in a car of the Burlington Road as it was leaving the depot, and robbed of \$3,000. The thieves then jumped from the car and escaped.

FOUND WITH HIS SKULL CRUSHED.

MORRISTOWN, N. J., April 18.—Daniel Duggin was found dead with his skull crushed, near Milford, yesterday. He is supposed to have been murdered in a drunken brawl. Tom Con and Peter Galligan, companions, are lodged in jail on suspicion.

A TWO MILLION FAILURE.

THE LIABILITIES OF JAS. MARSHALL & CO., PITTSBURG, MUCH GREATER THAN FIRST REPORTED.

PITTSBURG, PA., April 18.—The absorbing topic of conversation here in business circles is the failure of Jas. Marshall & Co. The full extent of the disastrous crash was underestimated at first rather than overdrawn, and as later development are made, the total amount of liabilities reach almost \$2,000,000, about \$300,000 of which is unsecured. The fact that the largest portion of these liabilities are secured by collaterals is, of course, a relieving feature of the unfortunate affair, as it secures the heaviest creditors against loss. Some fear is entertained in other directions, however, but is pronounced groundless by competent persons. It is thought that the vast quantity of pig-iron—nearly 60,000 tons—in storage in the name of the insolvent firm may be thrown on the market by forced sales, and that the weak iron market will be badly broken, possibly affecting ore men and others. This fear is shared by the assignee (Whitney) or some iron men who were spoken to upon the subject. They believe that the banks which are the holders of certificates on this iron, will pursue a conservative policy and sell the iron gradually, and in such quantities as not to injure trade.

The list of the unsecured creditors and the amount of their loss was made public today. The heaviest losers are: Mark Watson, brother-in-law of James Marshall, who in legal notes for \$200,000, Hugget, Hattor & Co., trustee men of Pa., one county, \$95,000; Marston & Bros. of Philadelphia, \$82,000, and \$75,000 divided among the Fair Chance Furnace Company, of Uniontown, Pa., Fayette Brown, receiver of Brown, Beaman & Co., of Youngstown, Ohio, the Harbor Furnace Company, of Fayette county, Pa., and the Rockhill Furnace Company, of Ohio.

A JAILER IN LUCK.

THE CUSTODIAL OF THE HANDSOMEST WOMAN THAT EVER GRACED A CELL PROBABLY.

ST. LOUIS, April 18.—The quiet little village of Briar Hill, Ill., on the Pittsburgh road, was thrown into great excitement yesterday when Deputy Sheriff Ragland and Hugo Bonaparte, jun., from this city, arrived in town, and arrested John Boswell, and his supposed wife, Miss Julia Ryan, for adultery. The couple had lived there only six weeks, and were deemed the handsomest pair in town. No one supposed that there was anything wrong in their relations until the officers brought a warrant for their arrest, made at the instance of Mrs. Catherine Ryan, of Kewanee, Ill., mother of Miss Ryan. She says that Boswell has a wife and three children living in Kewanee, whence he had fled with her children.

Miss Ryan is about twenty-seven, and the best looking bounder the jail has had for some time.

"NOT GUILTY."

IS THE VERDICT THE JURY FOUND IN THE CASE OF GEORGE SCHELLER, CHARGED WITH BURNING THE NEWHALL HOUSE, AT MITCHELL?

MILWAUKEE, April 18.—The counsel in the case of George Scheller, on trial for arson in connection with the burning of the Newhall House, and the city's attorney, finishing their addresses to the jury. Judge Mallory gave his charge, saying the prisoner should have the benefit of any doubt. The jury retired, and after deliberating two hours brought in a verdict of "not guilty." The court-room rang with applause when the verdict was announced, and Scheller's wife wept for joy. The result was generally expected. The cause of the horrible tragedy in which one hundred persons perished will ever remain a mystery.

IMPORTANT TO LAWYERS.

A FLORIDA LAWYER DISBARRED FOR HAVING TAKEN PART IN A LYNNING.

WASHINGTON, April 18.—A decision was rendered by the Supreme Court of the United States yesterday in the disbarment case of J. B. Wall, brought here on a petition of mandamus from the United States District Court for the Southern District of Florida. Wall, the petitioner, was disbarred, and forbidden to practice in the United States District Courts of the district above mentioned, for having taken part in lynching a prisoner named John, who was in jail at Tampa, Fla., awaiting trial on a charge of rape.

The petitioner asks for a writ of mandamus to compel the United States District Judge to restore to him the rights and privileges of an attorney in said court, on the ground that his disbarment without due trial and conviction for crime, was unconstitutional and void. This court, in an elaborate opinion by Justice Bradley, holds that while there is no settled and inflexible rule for the regulation of procedure in cases of this kind, the Federal courts may, in their discretion, disbar any attorney who has been guilty of conduct of such a nature as to bring disgrace and scandal upon the court, whether he had been duly tried under the criminal laws of the state or not. The petition for mandamus is, therefore, denied. Justice Field read a dissenting opinion.

A CONFIDING WIDOW.

She Yielded Up Herself and Property to Mr. Long and Came Off Short.

CLEVELAND, O., April 18.—A flashily dressed man, named A. C. Long, came here some months ago, and represented that he was a man of wealth and owned a large hotel at Charlevoix, Mich. He wanted a wife that had money, and could "boss" his hotel. Mrs. Mary A. Peet, a well-to-do widow, caught at the bait, and the couple were married a few short months ago. Immediately after the wedding Mr. Long was in a hurry to go to Michigan; so he

THE empty honor of the Republican nomination for the Presidency does not seem to be eagerly sought for. Even Gresham, who was almost unknown until a few weeks ago, has declined it.

THE Democratic Executive Committee of Lewis county has sent out a circular appealing to the State Democracy in behalf of Mr. H. K. Taylor, as a candidate for Superintendent of Public Instruction.

THE coronation of the Czar of Russia has again been postponed. It is now announced to take place on the 15th of June. The flight that caused the delay originated out of the activity of the Nihilists and the recent discovery of their plotting.

THE Frankfort Yeoman asks what kindred was Schenck's Garfield, recently deceased, to the late President Garfield. The writer of this a few years since asked Schenck's Garfield that question and his answer was that they had conferred on that subject, and while they could not directly trace the relationship, they both believed that it existed.

THE following is from the Washington correspondent of the Cincinnati Enquirer: The hosts of friends of ex-Congressman Thomas L. Jones, of Kentucky, made in this city during his very creditable and honorable public service, are pleased to hear that the mantle of Kentucky's executive cares are liable to fall on the Colonel's shoulders. The Democracy of Colonel Jones, when a Representative in Congress, was so unadulterated and sincere, that in contrast with some of the latter-day spurious article, it shines like real gold. Doubtless Colonel Jones would shine equally as Kentucky's governor, and if so it would be a warranty deed that Kentucky had chosen to rule her proud Commonwealth, a scholar, a gentleman and a sterling Democrat.

THE most despicable government in Europe in one particular is that of Italy under Hubert, the son and successor of Victor Emmanuel. It is a matter of recent and well-known history that it was owing to the powerful intervention and aid of France under Louis Napoleon that the most valuable portions of Italy were rescued from the long and oppressive dominion of Austria. Yet, no sooner was this accomplished than the Italian Government began manifesting a restive ingratitude to France and in the terrible contest of France with Prussia it was understood that the sympathies of the Italian Government were with the latter. And now it is published that Italy has joined with her late oppressor and Prussia in an alliance against France. Such base ingratitude ought to be held up as infamous, to the public opinion of the civilized world, especially as France is now a Republic.

PRESTONBURG, in Floyd county, although one of the oldest town in the State and a moral and intellectual place, has never had a church.

THE Kentucky Pharmacists' Association meets at Lexington on the 22nd of May and not on the 15th as heretofore stated.

Chicago Suicides.

CHICAGO, April 18.—Baker Born, a middle aged saloon keeper, committed suicide today by jumping into the lake at the foot of Goethe street. James Orogan also attempted suicide by the lake route, but was fished out of the water by some firemen, and resuscitated. Suicides have been abnormally prevalent for the past month.

The Terror of Hard Times Landing.

SHEREPORT, LA., April 18.—Robert Crawford, an inoffensive fisherman, living near Hard Times Landing, was brutally murdered last night by a lot of negro gamblers. A few days before, a German named Kelsner was assaulted and horribly maimed by having both eyes put out by this same gang.

Indians in New Mexico.

ALBUQUERQUE, N. M., April 18.—Intelligence from Belen says that a band of Apaches has been seen near Manuelito Otero's ranch, in Valencia county, 150 miles from Belen. Otero sent a courier to Belen for thirty armed men, and they started immediately for the ranch.

Kicked by a Mule.

St. Louis, April 18.—Tom Allen, the ex-pugilist, had a row in his saloon to-day with a Pennsylvanian who goes by the name of Billy Edwards, but who is no relation to the famous light weight. In the course of the controversy Allen hit Edwards in the jaw, knocking his teeth out and driving them through his left cheek.

The Edmunds Bill Ignored.

SALT LAKE, UTAH, April 17.—The April term of the Third District Court has begun in this city. No regard was paid to the Edmunds bill in the impaneling of a grand jury, and none will be paid to it in making up the petit jury.

Texas Law and Order.

AUSTIN, TEX., April 18.—The citizens of Lasalle county wired Adjutant General King that lawless individuals threaten the District Court there. General King ordered the Rangers there.

Use of Phosphates.

CINCINNATI, COMMERCIAL.—I see in your last issue "Uncle Fuller" wishes some one not connected with the sale of superphosphate or bone dust to tell his experience in regard to its use—whether it supplies a lack, or want, or deficiency in the soil, or only stimulates the soil so that it is the sooner exhausted. When phosphates were first introduced here, many claimed the same thing of them, but it was always from those who had never used them. No one in this vicinity now claims any such result from their use.

I was the first in this part of the country that used phosphates. I have used two tons a year for several years; I have used it with, wheat, corn, potatoes, onions, vines, all kinds of garden vegetables and nursery trees. The phosphate has proved profitable in every place in which I used it. When used on corn it not only makes a very much larger crop but at least two weeks earlier. I have frequently seen its good effect continued several years. Under my observation, after it has doubled several crops in succession, it has helped the grass equally well for years. My farm is naturally good and has not been reduced, so I do not think it pays me as well as it does those on poor, worn out farms. A farm near me was so reduced a few years since that grass seed would not grow. But the use of phosphates it now produces as good crops as any in the township. Phosphate and ground bone restores to the soil the lime quality taken from it by the sale of butter, cheese and beef for many years past—John V. Whitney.

THE BAD BOY.

Peek's Son.

"Well, how is the baby?" asked the grocery man of the bad boy, as he came into the grocery smelling very "horsey," and sat down on the chair with the back gone, and looked very tired.

"O, darn the baby. Everybody asks me about the baby as though it was mine. I don't pay no attention to the darn thing, except to notice the foolishness going on around the house. Say, I guess that baby will grow up to be a fire engine. The nurse coupled the baby on to a section of rubber hose that runs down into a bottle of milk, and it began to get up steam and pretty soon the milk began to disappear, just like the water does when a fire engine couples on to a hydrant. Pa calls the baby 'Old Number Two,' I am 'Number One,' and if pa had a hook and ladder truck and a hose cart and a fire going he would imagine he was chief engineer of the fire department. But the baby kicks on the milk wagon milk, and howls like a dog that's got lost. The doctor told pa the best thing he could do was to get a goat, but pa said since we've initiated him into the Masons with the goat he wouldn't have a goat around no how. The doc told pa the other kind of a goat, I think it was a Samantha goat he said, wouldn't kick with its head, and pa sent me up into the Polack settlement to see if I couldn't borrow a milk goat for a few weeks. I got a woman to lend us her goat till the baby got big enough to chew beef, for a dollar a week, and paid a dollar in advance, and pa went up in the evening to help me get the goat. Well it was the darndest mistake you ever see. There was two goats so near alike you couldn't tell which was the goat we leased, and the other goat was the chin of our goat, but it belonged to a Irish woman. We got a bed cord hitched around the Irish goat, and that goat didn't recognize the lease, and when we tried to jerk it along it rared right up, and made thinks red quick for pa. I don't know what there is about a goat that makes it get so spunky, but that goat seemed to have a grudge against pa from the first. If there were any places on pa's manly form that the goat did not explore, with its head, pa don't know where the places are. O, it hammed him, and when I lifted pa got mad. I told him every man ought to furnish his own goats, when he had a baby, and I let go of the rope and started off, and pa said he knew how it was, I wanted him to get killed. It wasn't that, but I saw the Irish woman that owned the goat coming around the corner of the house with a cistern pole. Just as pa was getting the goat out of the gate the goat got cross ways of the gate, and pa yanked, and doubled the goat right up, and I thought he had broke the goat's neck, and the woman thought so too, for she jabbed pa with the cistern pole just below the belt, and she tried to get a hold on pa's hair, but he had her there. No woman can get the advantage of pa that way, 'cause ma has tried it. Well, pa explained it to the woman, and she let pa off if he would pay her two dollars for damages to her goat, and he paid it, and then we took the nanny goat, and it went right along with us. But I have got my opinion of a baby that will drink goat's milk. Gosh, its like this stuff that comes in a spoiled coconut. The baby hasn't done any thing but eat since the nurse coupled it onto the goat hydrant. I had to take all my play things out of the basement to keep the goat from eating them. I guess the milk will taste of powder and singed hair now. The goat got to eating some Roman candles and my chum hid hid away in the coal bin, and chewed them around the furnace, and the powder leaked out and a coal fell out of the furnace on the hearth, and you'd a dide to see pa and the hired girl and the goat. You see pa can't milk nothing but a milk wagon, and he got the hired girl to milk the goat, and they were just hunting around the basement for the goat, with a tin cup, when the fireworks went off. Well, there was balls of green, and red, and blue fire, and spilled powder blazed up, and the goat just looked astonished, and looked on as though it was sorry so much good folder was spoiled, but when its hair began to burn, the goat gave one short and went between pa and the hired girl like it was shot out of a cannon, and it knocked pa over a wash boiler into the coal bin, and the hired girl in amongst the kindling wood, and she crossed herself and repeated the catechism, and the goat jumped up on top of the brick furnace, and they couldn't get it down. I heard the celebration and went down and took pa by the pants and pulled him out of the coal bin, and he said he would surrender, and plead guilty of being the biggest fool in Milwaukee. I pulled the knitting wood off the hired girl, and then she got mad, and said she would milk that goat or die. O, that girl has got sand. She used to work in the glass factory. Well, sir, it was a sight worth two shilling admission, to see that hired girl get up on a step ladder to milk that goat on top of the furnace, with pa sitting on a barrel of potatoes, bossing the job. They are going to fix a gang plank to get the goat down off the furnace. The baby kicked on the milk last night. I guess besides tasting of powder and burnt hair, the milk was too warm on account of the furnace. Pa has got to grow a new lot of hair on that goat, or the woman won't take it back. She don't won't no bald goat. Well, they can run the baby and goat to suit themselves, 'cause I have resigned. I have gone into business. Don't you smell anything that would lead you to surmise that I had gone into business? "No drugstore this time," and the boy got up and put his thumbs in the armholes of his vest, and looked proud.

"O, I don't know as I smell anything,

except the faint odor of a horse blanket. What you gone into anyway," and the grocery man put the wrapping paper under the counter, and put the red chalk in his pocket, so the boy couldn't write any sign to hang up outside.

"You hit it the first time. I have accepted a situation of teller in a livery stable," said the boy, as he searched around for the barrel of cent sugar, which had been removed.

"Teller in a livery stable! Well, that is a new one on me. What is a teller in a livery stable?" and the grocery man looked pleased and pointed the boy to a barrel of seven cent sugar.

"Don't you know what a teller is in a livery stable? It is the same as a teller in a bank. I have to grease the harnesses, oil the buggies, and carry off the horses, and when a man comes in to hire a horse I have to go down to the saloon and tell the livery man. That's what a teller is. I like the teller part of it, but greasing harness is a little too rich for my blood, but the livery man says if I stick to it I will be governor some day, cause most all the great men have began life taking care of horses. It all depends on my girl whether I stick or not. If she likes the smell of horses I shall be a statesman, but if she objects to it, and sticks up her nose, I shall not yearn to be governor, at the expense of my girl. It beats all, don't it, that wimmen settle every great question. Everybody does everything to please wimmen, and if they kick on anything that settles it. But I must go and umpire that game between pa and the hired girl and the goat. Say, can't you come over and see the baby?" "Taint bigger than a small scatich," and the boy waited till the grocery man went to draw vinegar when slipped out and put a sign written on a shingle with white chalk, "yellow sand wanted for my sugar."

No Faith in Lawyers.

Boston Advertiser.

A St. Louis juror was taken sick in the court room, but was not excused. It was mentioned by an attorney, who said he had tried the remedy, that peppermint and whisky was good, and this was ordered by the jailor.
